Helpful Hints

- A delinquency status code must be reported each month for every delinquent Mortgage Loan even when a Mortgage Loan was reported in the prior month and there has been no change to the code.
- The Servicer must report the one delinquency reason code that most specifically describes the circumstance that appears to be the primary contributing factor to the Delinquency.
- All Borrower's who are in Bankruptcy must be reported monthly regardless of the status of the loan (current/delinquent.)

Appendix

Delinquency Status Codes

Each of the following Delinquency Status Codes can be applied to a given Mortgage Loan at any time after the Mortgage becomes Delinquent. The codes are not always mutually exclusive; however, the Servicer must report only one code. The code may change from month to month and is based on the code hierarchy in the tables below. A code for a delinquent Mortgage Loan must be reported in each reporting cycle even when that Mortgage Loan was reported in the prior month and there has been no change to the code.

When multiple Delinquency Status Codes are applicable to a Mortgage Loan, the Servicer must use the most appropriate, highest priority code. Priority Level 1, Priority Level 2, and Priority Level 3 Delinquency Status Codes are mutually exclusive, meaning only one Delinquency Status Code within each priority level can apply during a reporting cycle. If the most appropriate Delinquency Status Code is in a Priority Level in which the codes are not mutually exclusive (Priority Levels 4 through 6), the Servicer must determine the code that best describes the latest action taken to cure the Delinquency or to liquidate the Mortgage loan.

The Servicer must continue to report the appropriate code based on the hierarchy and the effective date of the action taken until the Delinquency has been resolved or the delinquency status action is complete. If the code description does not provide a definition of the effective date, then the Servicer must report the date the action was taken.
